About Checkers Online

The appeal of board games is their lax nature. This isn't to say that they can't get very active, intense, or competitive, but they're mainly built for players to take as much time as they want. Checkers has always had a design made for easy absorption and interaction but can challenge your strategic thinking as much as any complex modern board game. There are always more options than may be readily apparent and the challenge is to try and find all of them before deciding to make your move. Only then can you hope to appreciate every part of the game.

## How to Play

Checkers Online is a 3D competitive board game that you play with the mouse. The game begins with you choosing whether to play as the white or black pieces. No matter which you choose, the white side always moves first. The game uses standard Checkers rules and is arranged on an 8 by 8 board. Each piece can only move forward, but must either move one spot diagonally on the left or on the right. To move a piece, click on it and then choose the highlighted spot you want it to move.

In order to take the opponent's pieces, your piece needs to jump over them diagonally. This can only be done if the opposing piece is occupying a diagonal space in front of one of your pieces and the diagonal space behind them is open. As a result, consecutive jumps are also possible. If one of your pieces makes it to the last row on the other side of the board, that piece becomes a King and gains the ability to move diagonally backward or forward. To win the game, you must eliminate all of your opponent's pieces.
